

# Hidden Treasures

By Eileen Price

Oh, what magic is hidden in this cave? If you were here, what would you hope to find? A singing seahorse? A golden treasure chest? A secret door?

What if you were the one to hide the treasures? What would they be? Where would you hide them? So many choices – and all you have to do is imagine!

Imagination is one of our greatest gifts. Did you know that imagination and learning go hand in hand? Scientists, educators, inventors, even artists all use their imaginations to make their mark on the world.... with one simple question! What if?

Let your imagination transport you to this secret cave where you control what's inside. Just close your eyes, and make believe your standing on that beach, ready to start a new adventure.

WARNING: Please imagine responsibly!

## Activities:

- Write a story about your cave of hidden treasures. Mail it to your grandparents, aunts and uncles, cousins. It would make a lovely gift!
- Keep a journal of adventures you would like to have in this cave. Create stories about your cave, adding or subtracting the adventures from before. Put a date on them and see how they change over time.
- Draw your own cave of hidden treasures. You can change it and redesign it anytime you like.

If you would like to share your creation with this author, send it to [eileen@wearebrilliance.com](mailto:eileen@wearebrilliance.com).

If you would like a set of the above drawing as a postcard, email me. The drawing was a gift from my oh, so talented son. He continues to inspire me!!
